To join
the Anthropocene
lecture series
for free register

HERE

An interdisciplinary online lecture series on the Anthropocene with national and international speakers of various disciplines will examine the Anthropocene from different perspectives.

Online discussion to ask questions after each lecture

23. April 2024 - hybrid lecture - kärnten.museum

13. Juni 2024 - hybrid lecture - ZEIT-Gespräch / 7. Forum Anthropozän

The **Anthropocene** presents challenges to all academic fields. Bringing together the humanities and the sciences, the Vienna Anthropocene Network comprises scholars from geology, geography, the life sciences, history, philosophy, literary and cultural studies, anthropology and a range of area studies.

The international Forum Anthropocene serves as a platform which addresses the transdisciplinary topic of the Anthropocene with a special focus on globality, urbanity and rural areas.

12.03.24 englisch
